FROM: Tom Munson, Senior Reclamation Specialist *TM*

RE: Site Inspection of the Mammoth Mine, Mammoth Mining Company, Grand Central Silver, S/023/041, Juab County, Utah

Date of Inspection: April 7 - 8, 2000

Conditions: Sunny, warm

Participants: Jason Knowlton, Mammoth Mining Co; Barry Katona, Grand Central Silver Mines; Tom Munson and Louie Amodt, DOGM

Purpose of Inspection: To determine reclamation responsibilities involved in the transfer of this project.

On April 7 and 8th, 2000 Tom Munson and Louie Amodt of the Division, Mr. Barry Katona of Grand Central Silver, and Mr. Jason Knowlton of Mammoth Mining Company preformed an inspection of various roads, mine sites, and mine openings to determine reclamation responsibilities involved in the transfer of Grand Central Mining to Mammoth Mining (Mr. Spent Hansen). On April 7, 2000 everyone except Louie Amodt met at the Mammoth Mine site at 10 am. Louie joined the inspection team the next day, on the 8th. We proceeded to walk the Butterfly Gap road and determine its length and area. There are three areas of downcast material associated with the road. All of these were measured.

The next area we visited was Drill Pad Road 94 below the Butterfly Gap Road. Rather than try to explain each area in the text of this memo, I will put together a table of the acreages and /or length of roads and pads.

The following additional sites were visited and informational gathered:

<u>Areas</u>	<u>Length (FT.) or Area (acres)</u>
1. Butterfly gap road	1204 feet long by 25 feet wide
2. Area A	.514 acres
3. Area B	.166 acres
4. Area C	.36 acres
5. Nad Breccia Pad area	.15 acres
6. Nad breccia Road	1903 feet by 20 feet wide
7. Plummer tunnel road (lower)	381 feet by 25 feet wide

8.	Plummer tunnel Road (upper)	506.4 feet by 25 feet wide
9.	Plummer tunnel ore shoot pad	.144 acres
10.	West Ore Run	1787 feet

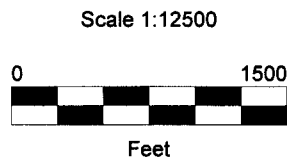

Areas viewed but not measured

10.	Centennial Eureka and Openings	Large adit to be backfilled
11.	Sioux Ajax	Historic Gated adit with large timbers
12.	Lower Mammoth	Gated historic opening
13.	Ajax and Big slot	Small adit used for exploration of a large previous disturbance
14.	Water Tank	Small adit used for exploration of the Mamouth Mine
